

AI-FIRST DIGITAL ENGINEERING COMPANY

ALPHABITS^{AI}

CORPORATE PORTFOLIO

Elevating Through Innovation & Technology

We make everyday easier through technology

AlphabitsAI is a trusted transformation partner helping businesses unlock new digital opportunities and elevate performance. We blend creativity with strategic thinking to bring bold ideas to life — every engagement begins with deep research, thoughtful planning, and a passion for innovation.

We design experiences that connect emotionally, engage audiences, and strengthen brand presence, while staying centered on measurable outcomes, performance, and data-backed decisions.

OUR AMBITION

To shape the future of enterprise technology by making AI practical, trusted, and transformative.

OUR PURPOSE

We empower organizations with intelligent technology that is secure, scalable, and designed to create lasting business impact.

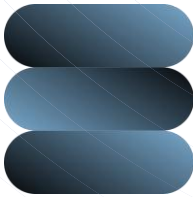

The AI opportunity is no longer theoretical

Enterprise adoption has moved from pilots to production — and the market is scaling accordingly.

65% 

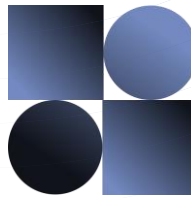

of organizations now use generative AI in at least one business function — roughly double the rate of ten months earlier

McKinsey, Q1 2026

72% 

of enterprises report at least one AI deployment already in production

Gartner / IDC, 2026

\$1.3T 

projected size of the generative AI market by 2032, up from \$67B in 2026

Bloomberg Intelligence

2X 

more likely to exceed revenue goals when organizations redesign workflows around AI, not just layer it on

Gartner survey of 1,973 managers, 2025

Solutions tailored to your business needs

AI & Intelligent Automation

AI-powered automation, intelligent workflows, and data-driven decision-making.

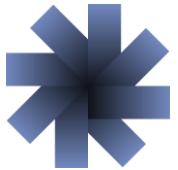

Custom Software Development

Secure, scalable web, mobile, and enterprise applications built for your needs.

Enterprise Solutions

ERP, CRM, HRMS, and workflow platforms designed for growth.

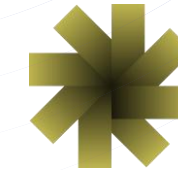

Cloud & DevOps

Cloud-native infrastructure, DevOps automation, and reliable deployments.

Data & Analytics

Dashboards, reporting, and predictive analytics that turn data into action.

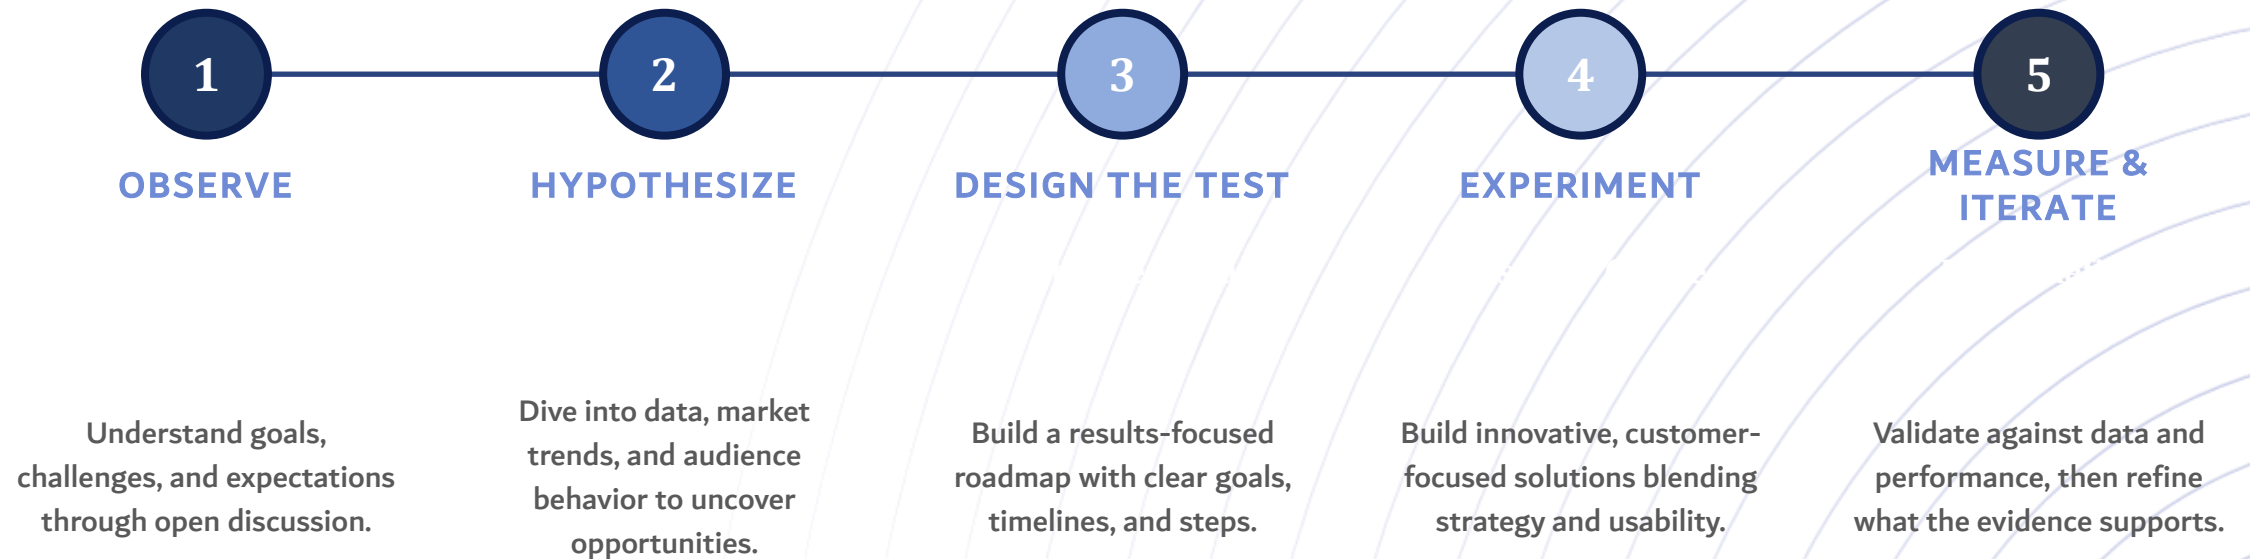

Digital Transformation

Technology strategies that improve efficiency and drive innovation.

A scientific approach to innovation

Every engagement runs as a closed loop of observation, hypothesis, experimentation, and measurement — so decisions are backed by evidence, not opinion.

Proven Delivery Framework

01

Discover

- Business workshops
- Requirements gathering
- Stakeholder interviews
- Problem definition

02

Design

- Solution architecture
- UX/UI
- Technical planning
- Risk assessment

03

Develop

- Agile implementation
- Sprint planning
- Continuous integration
- Code reviews

04

Test

- Functional testing
- Automation
- Performance
- Security
- UAT

05

Deploy

- Cloud deployment
- DevOps automation
- Monitoring
- Production rollout

06

Support

- Application support
- Enhancements
- Performance optimization
- Continuous innovation

RESULTS DELIVERED

Process automation

Transforming Operations with Digital Intelligence

How AlphabitsAI helped a global enterprise accelerate decision-making and automate core processes at scale.

Your Strategic Technology Partner

Organizations choose AlphabitsAI because we combine innovation, technical excellence, and business understanding.

AI-First Mindset

Artificial Intelligence is embedded into every solution we build.

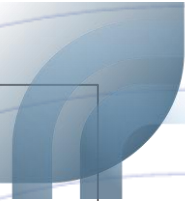

Enterprise Architecture

Designed for security, scalability, resilience, and long-term growth.

Experienced Leadership

Decades of experience delivering enterprise transformation programs.

Agile Delivery

Rapid iterations, continuous collaboration, and predictable outcomes

Customer-Centric Approach

We focus on measurable business value — not just software development

Innovation Culture

Continuous research into emerging technologies keeps clients ahead.

what's next, together.

Your trusted partner for AI, digital engineering, and enterprise transformation.
